

All A/C units **MUST** have **Digital Display** and **Automatic Restart**

A/C brands marked with * have a minimum *ON* cycle time set from the factory; using an oversized A/C from these brands may lead you to experience colder than set temperatures or ice ups. Please use the recommended size A/C.

A/C *Secondary Sensor Guide* and *Mini-Split Installation Guide* available at our "Library" at:

<https://storeitcold.com/support-library/>

COMPATIBLE UNITS
